

5 Oceans Fund

February 2018

Performance Commentary

The 5 Oceans Fund was up 0.91% in January.

The Australasian focused Ranger Fund continued on from its strong 2017, up 1.6%. The global Acadian Fund was up 0.3% (in unhedged terms) with the currency hedging also contributing positively as the NZD strengthened over the month versus the USD.

The bond managers had solid months with AMP and Kapstream both up around 0.3-0.4%.

Volatility continued to be very benign across multiple asset classes. This contributed to Kohinoor being down 2.7% for the month (in AUD).

Fund Strategy

The 5 Oceans Fund is designed to have a diversified asset and geographic exposure. The exposure to growth assets can be varied between 30% and 70% of the Fund depending on the underlying managers' assessment of market risk. This is quite different from traditional diversified funds which often target a set growth allocation and invest accordingly.

The Fund achieves this by carefully selecting managers that have flexible investment mandates and/or employ risk mitigation strategies. This gives the Fund a dynamic and flexible exposure to growth assets and greater focus on capital protection in the event of market crashes.
