

5 Oceans Fund

June 2018

Performance Commentary

The 5 Oceans Fund was up 0.37% in May in a relatively benign month.

The Australasian focused Ranger Fund was the largest contributor, up 1.7%. The global Acadian Fund was flat (in unhedged terms) and the currency hedging in place was not a material driver of returns this month.

The bond managers both delivered positive returns, with AMP up 0.33% and Kapstream up 0.16% (in AUD). Volatility was generally low, which led to Kohinoor being down 2.3% for the month.

We are also implementing a manager change with T Rowe Price and Daintree coming in to replace Kapstream for international fixed interest.

Fund Strategy

The 5 Oceans Fund is designed to have a diversified asset and geographic exposure. The exposure to growth assets can be varied between 30% and 70% of the Fund depending on the underlying managers' assessment of market risk. This is quite different from traditional diversified funds which often target a set growth allocation and invest accordingly.

The Fund achieves this by carefully selecting managers that have flexible investment mandates and/or employ risk mitigation strategies. This gives the Fund a dynamic and flexible exposure to growth assets and greater focus on capital protection in the event of market crashes.

Performance to 31 May 2018 (net of fees)

	Past Month	Past Quarter	Past Year	Since Inception (p.a.)*
5 Oceans Fund	0.37%	0.11%	7.50%	8.26%
