Ranger Fund

Fund Strategy
The Ranger Fund is a high conviction portfolio of New Zealand and Australian listed companies. The Fund’s objective is to provide equity-like returns over the long run while minimising exposure to extreme sharemarket fluctuations. During periods of market stress, the Fund will seek to preserve capital by holding significant amounts of cash and bonds, shorting individual shares, selling index futures contracts and/or buying index put options. The Fund will not be levered or net short.
