

## Trans-Tasman Fund

30 June 2020

### Performance Commentary

The Trans-Tasman Fund was up 6.47% in June versus the S&P/NZX50 benchmark, which was up 5.23%.

The most positive contributors to performance were Redbubble and Sezzle, both benefitting from the recent surge in online retail spend. The reappointment of the founding CEO at Redbubble, which occurred earlier this year, also appears to be helping them. As the leading global online marketplace for artists selling uniquely designed apparel and homeware, Redbubble has a solid foundation to grow its customer base and its offering. Signs that growth is now being delivered underscores the potential for material value appreciation, in our opinion. Corporate Travel and IVE Group were moderate detractors, pairing back recent gains.

During the month we took an overweight position in Metlifecare based on valuation following the takeover offer dispute.

### Portfolio Strategy

The Castle Point Trans-Tasman Fund invests in New Zealand and Australian Listed Companies and is benchmarked to the S&P/NZX 50 Index. The objective of the portfolio is to outperform the benchmark over rolling three year periods. With its high active share the portfolio targets a tracking error of between 3-6% and will typically have less than 5% in cash at any time.
