

## Trans-Tasman Fund

May 2019

### Performance Commentary

The Trans-Tasman Fund was up 2.18% in April, whilst the S&P/NZX50 benchmark was up 1.72%.

Kogan.com was a solid contributor to return, having issued a positive business update mid-way through the month. It confirmed solid growth and a strong pipeline of new opportunities. Kogan.com's share price rose 62% over the month.

Afterpay and Boom Logistics also contributed positively, but on no real news. MacMahon was the largest detractor to performance, but again on no company specific news.

### Portfolio Strategy

The Castle Point Trans-Tasman Fund invests in New Zealand and Australian Listed Companies and is benchmarked to the S&P/NZX 50 Index. The objective of the Portfolio is to outperform the benchmark over rolling three year periods. With its high active share the Portfolio targets a tracking error of between 3-6% and will typically have less than 5% in cash at any time.
